Wenskaarten met geponste Faux Leather papieren paddenstoelen

v15448

Maak je eigen wenskaarten met paddenstoelen ontwerpen. Hier zijn twee ideeën voor wenskaarten voor het najaar met uit Faux Leather geponste paddenstoelen. De ene kaart heeft een zakje op de voorkant voor de paddenstoelen die kunnen worden gebruikt als hangende decoraties. De andere kaart is gedecoreerd met Faux Leather decoraties en rivets.

Hoe werkt het

1 Punch out mushrooms for hanging decorations from faux leather paper and card. Cut off the stalks and swap them to give the mushrooms a different look. Cut out small card dots and glue them onto the head of the mushrooms.

2 Place a piece of cord onto the stalk and glue two mushroom heads around the stalk and cord. Glue another two mushrooms onto the cord (each consisting of two mushrooms) and tie a knot at the end.

3 Make a pocket for the mushrooms from a 10 x 14.3 cm piece of faux leather paper and a 10 x 12 cm piece of vellum paper. Fold the vellum paper around the faux leather paper and glue it at the bottom and the back with a glue pen.

4 Glue it onto the front of the greeting card with a glue pen.

5 Stamp text on the faux leather paper.

6 Cut a small card heart and glue it on.

7 Cut two small incisions at the top of the greeting card. Insert the cord in the slots and leave the remaining cord inside the greeting card.

8 You may make a greeting card without the mushroom hanging decoration and instead decorate it with rivets and faux leather paper grass. Cut a 10 x 14.3 cm piece of card. Cut a small piece of faux leather paper for text and a piece of faux leather paper for grass. Punch out mushrooms like in step 1 and glue all the faux leather paper pieces onto the piece of card.

9 Make holes in the card using a screw punch and set the rivets with a hammer.

10 Glue the finished section onto the front of the greeting card.

11 A mushroom greeting card with a mushroom hanging decoration in a pocket.

12 A mushroom greeting card with rivets and grass.
