

## Snow globes with Christmas figures made from Nabbi fuse beads

v15966

Make your very own snow globe with Christmas figures made from Nabbi fuse beads. Make a Christmas tree, a snowman, a reindeer or Father Christmas and place your chosen figure inside the snow globe. Fill it with glitter and screw the lid back on tightly.

### *Hoe werkt het*

**1**  
Place the Nabbi fuse beads on a pegboard. Check out the various figures which – size wise – fit inside the snow globe in step 3.

**2**  
Place a piece of ironing paper or baking paper on top of the beads and iron them together with an iron. Do a small test beforehand as the temperature varies from one iron to another. Iron the beads so that they lightly melt together and then remove them carefully from the pegboard (still with the ironing paper or the baking paper on top). Place a book or a heavy object on top until the beads have cooled down, then remove the ironing paper or baking paper.

**3**  
Check out the various Christmas figures which fit – size wise – inside the snow globe.

**4**  
Unscrew the lid of the snow globe, remove the card from inside the lid. Glue one or two Nabbi fuse bead figures onto the inside of the lid using a glue gun. Make sure to place the figure in the centre of the lid.

**5**  
Fill the snow globe with water to approx. 0.5 cm from the rim and sprinkle glitter into the water.

**6**  
Screw the lid back on. Hold the snow globe over a bowl in case some of the water spills over the edge.

**7**  
Decorate the side of the lid with masking tape.

**8**  
A snowman inside a snow globe.

**9**  
Father Christmas inside a snow globe.

**10**  
A reindeer inside a snow globe.

**11**  
A Christmas tree inside a snow globe.
