

Paascreaties met puff-up

v12211

Verf kleine bloempotjes, samengeperst katoenballen en eieren met Plus Color. Maak polka stippen met Puff Liner en "blaas"; deze op met een warmtepistool. Voeg tenslotte bloemenlint toe, grappige ogen en andere decoratieve details.

Hoe werkt het

1. Paint a compressed cotton egg, a compressed cotton ball and a flower pot with Plus Color. Let it dry.

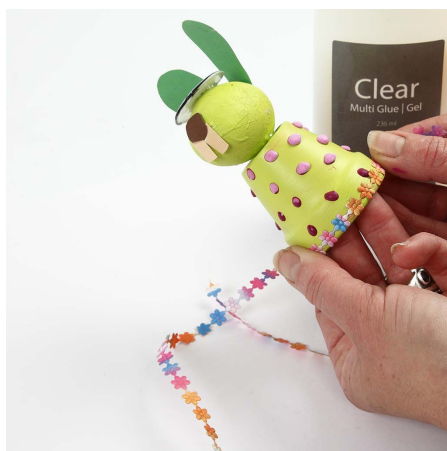

2. Cut the ears and the nose from card and glue these parts onto balls and eggs using a glue gun. Glue the head onto the flower pot. Use an end cutter for cutting off the fastener attached to the back of the funny eyes – glue the eye onto the compressed cotton ball with a glue gun.

3. Make dots on the flower pots, the head and the ears with a Puff Liner.

4. Use a heat gun and circular movements to puff up the dots.

5. Finally glue the flower ribbon onto the flower pot.
