

Terracotta met Color Blocker

v12685

Terracotta decoraties zijn gedecoreerd met Color Blocker en and A-Color Glass verf.

Hoe werkt het

- 1.** Place the flexible stencil securely on top of the terracotta decoration.

- 2.** Apply Color Blocker onto the flexible stencil design with a spatula. Let it dry.

- 3.** Apply a coat of paint. Let it dry.

- 4.** Use a foam stencil brush to carefully dab off the paint on top of the Color Blocker design.

- 5.** As an alternative you may write or draw directly onto the terracotta decoration with the Color Blocker (comes in a bottle with a tip).
