

Snor gemaakt van krimpfolie en gedecoreerd met stiften

v13574

Deze snor is gemaakt van krimpfolie gedecoreerd met Uni Posca stiften. Na het krimpen is de snor hanger bevestigd aan een ketting gemaakt van neonkleurig macramé koord.

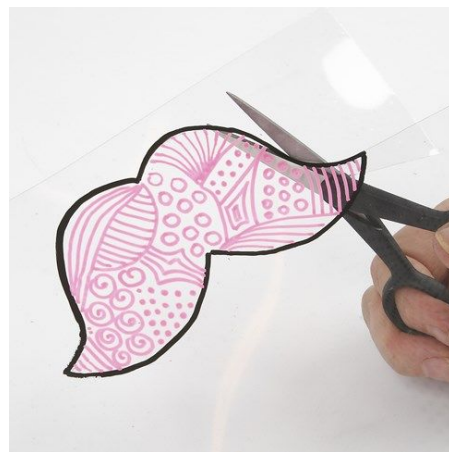

Hoe werkt het

1. Print the template which is available as a separate PDF file for this idea. Cut it out and draw onto a transparent shrink plastic sheet using a Uni Posca marker.

2. Use Uni Posca markers for drawing imaginative patterns/doodling on the moustache.

3. Cut out the shrink plastic sheet moustache.

4. Use the largest hole on the revolving punch pliers for making a hole at the top of both sides of the moustache, enabling you to use it as a pendant when shrunk.

5. Place the moustache on a baking sheet covered with baking paper and put it in an ordinary household oven at 160 °C. The plastic will shrink quickly and then flatten again. See the before and after example...

6. Insert a round jump ring in each hole on the moustache. Use one or two flat nose pliers.
