

Een paspoorttas gedecoreerd met transfer papier

v14756

Deze katoenen zakje zijn gedecoreerd met opgestreken designs op transfer papier en textielstiften.

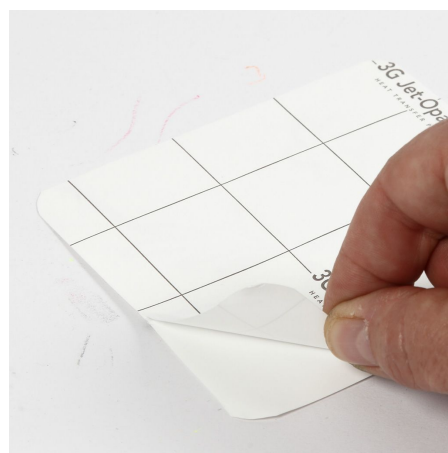

Hoe werkt het

1
Cut a piece of transfer paper to fit the size of the neck pouch; for example 10 x 11 cm. Decorate with textile markers according to your imagination.

2
Place a piece of cotton wool inside the neck pouch to prevent an imprint of the zip at the back when the design on the transfer paper is ironed onto the front.

3
Separate the paper from the backing paper and place the transfer paper onto the neck pouch with the design facing up.

4
Protect the design with baking paper and iron the designs onto the neck pouch.
