

Dienblad met gestencilde notenkraker

v15008

Dit dienblad is gedecoreerd een met acrylverf gestencilde notenkraker. Het dienblad is afgelakt met acrylvernis.

Hoe werkt het

1

Cut out the Nutcracker from the screen stencil sheet, making sure that it fits inside the tray. Attach the design with masking tape so that it doesn't move whilst dabbing on paint with a foam stencil brush. For the best result: make sure there is only a small amount of paint on the foam stencil brush when dabbing onto the stencil.
