# Design Paper Cone-shaped Christmas Trees

v14992

This cone Christmas tree is folded from design paper. The paper is cut out using a template and assembled with power tape.
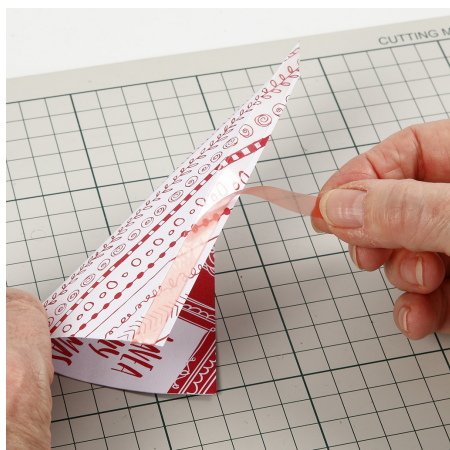

Hoe werkt het

1
Cut out the cone from design paper using the template.

2
Make a score line with a bone folder or a blunt cross stitch needle.

3
Fold along the score line and attach power tape.

4
Remove the red protective paper from the power tape and assemble the cone.
