

## Menukaart met kant karton en gestanste bloemen met 3D effect

v15380

Een zomerse menukaart gedecoreerd met kant karton en gestanste 3D bloemen.

### Hoe werkt het

**1**  
Cut a 7.5 x 18cm piece of card.

**2**  
Cut a suitable piece of lace patterned card.

**3**  
Punch out flowers and leaves from card and vellum paper. Use cutting plate C underneath and base plate B on top.

**4**  
Print out the menu text and glue it onto the card. Write MENU on the card with a marker (we have used a Plus Color marker). Glue the lace patterned card flower cut-outs onto the card first and then the punched-out flowers in layers.

**5**  
Lift the petals with a thin object to give a 3D effect to the flowers.

**6**
