

## Decoratieve houten sneeuwmannen en een kerstboom gevuld met Foam Clay

v15431

Decoreer deze decoratieve MDF vormen met Foam Clay in verschillende kleuren. De zwarte rubberen randen maken het makkelijk voor kinderen om de vormen in te vullen en doen ook de kleuren goed uitkomen.

### *hoe werkt het*

- 1**  
Apply Foam Clay to the gaps left by the black foam rubber inlay. Foam Clay sticks well to wood.

- 2**  
Cover the disc with Foam Clay. The finished figure will stand in the slot in the middle of the disc.

- 3**  
Model a nose from orange Silk Clay and press it lightly onto the snowman. Silk Clay sticks like Foam Clay.

- 4**  
Place the figures in the slots in the middle of the discs. The melted snowman consists of two MDF shapes both with a black foam rubber inlay.

- 5**  
Decorate the Christmas tree with self-adhesive rhinestones like a garland.

- 6**  
Make snowballs from Foam Clay and use them for decoration on the disc.

7

Make presents from Foam Clay.
